- 2.1. These General Terms and Conditions shall apply to all Offers, Orders and/or Agreements. Deviations from these General Terms and Conditions shall only be valid with Traffic ID 's explicit permission and when expressly agreed in writing between Parties. Parties state expressly that no general (and/or special) purchase conditions, terms of delivery or other terms and conditions other than these General Terms and Conditions shall apply to the Offer, Order and/or Agreement.
- 2.2. In the event of nullity or annulment of any provision of these General Terms and Conditions, the other provisions of these General Terms and Conditions shall remain in full force and Parties shall consult together in order to agree on new provisions as a replacement for the provisions that are null or, as the case may be, annulled, duly observing the object and purport of the provision(s) as much as possible.

GENERAL TERMS AND CONDITIONS

3. Agreement

- 3.1 All Traffic ID 's Offers shall be without engagement and shall consequently only be deemed to be an invitation to place an Order. The previous sentence shall not apply if a term of validity is stated expressly in the Offer.
- 3.2 An Agreement shall only be effected if (i) Traffic ID has confirmed this Agreement in writing, or (ii) Traffic ID performs acts from which it appears that it has accepted the Order, or (iii) the Offer has been confirmed without deviations in writing by Customer except in the event that Traffic ID is of the opinion that this Offer contains typing and/or printing errors. The term 'in writing' as used in the previous sentence shall be understood to include: by post, fax, email, EDI and/or other electronic means of communication in general use. Customer shall not be entitled to annul an Agreement.
- 3.3 Alterations or additions to (functional specifications of) deliveries of Goods and/or Services agreed between Parties desired by Customer shall only take effect after Traffic ID has granted its permission in writing. Alterations or additions which, in the opinion of Traffic ID, would result in an increase or extension of these deliveries, shall be considered as additional work for which Customer shall be charged separately – if Traffic ID accepts the increase or extension –, even if a fixed price had earlier been agreed between Parties.
- 3.4 In the event of additional work Traffic ID shall notify Customer of this as soon as possible and inform Customer of the effects of this on prices, rates, specifications, planning and timelimits.
- 3.5 Traffic ID reserves the right to contract out and/or transfer its rights and obligations arising from any Agreement in part or in full.

GENERAL TERMS AND CONDITIONS

4. Obligations of Traffic ID

- 4.1 For the purpose of delivering Goods and/or Services Traffic ID shall make qualified persons available and make every endeavour to execute the delivery to the best of its knowledge and ability.
- 4.2 Traffic ID shall deliver Goods and/or Services during Workdays, unless agreed otherwise in writing between Parties. All planning and timelimits indicated and/or agreed by Traffic ID have been described and planned to its best knowledge on the basis of the information and circumstances which were known to Traffic ID when the Agreement was entered into. Traffic ID shall endeavour to comply with the said planning and timelimits as much as possible; the single exceeding of a timelimit or planning as referred to above shall not be considered as an attributable shortcoming of Traffic ID. If an exceeding occurs or is threatening, Parties shall consult together as soon as possible.
- 4.5 Traffic ID shall guarantee that Traffic ID Software – which is therefore not the Supplier's software – will operate in accordance with the specification(s) laid down by Traffic ID for a period of three (3) months from the moment of delivery by or on behalf of Traffic ID or, if an acceptance test has been agreed between Parties, three months after acceptance. If the Traffic ID Software referred to in the previous sentence shows Defects during this period, Customer shall forthwith notify Traffic ID of this in writing, in detail, after which Traffic ID shall to the best of its knowledge and ability remedy the Defects or replace the Software, at the discretion of Traffic ID. Traffic ID does not guarantee that the Works and/or Goods will operate without interruption or failure. The said Defects shall be remedied free of charge by or on behalf of Traffic ID, unless Traffic ID Software was developed other than at a fixed price on the instructions of Customer, in which event Traffic ID shall charge its usual rates and the cost of repair. Traffic ID shall also be entitled to charge its usual rates and the cost of repair in the event of improper, negligent or injudicious use by Customer or other causes not attributable to Traffic ID or if the Defects could have been established during the performance of the agreed acceptance test. Restoration or recovery of any mutilated or lost data shall not be covered by the guarantee. The guarantee obligation shall lapse if Customer makes any modifications or causes any modifications to be made to Traffic ID Software without the written permission of Traffic ID. Defects shall be remedied at a location to be determined by Traffic ID. Traffic ID shall be entitled to provide the said Traffic ID Software with temporary solutions or with software bypasses or problem-avoiding restrictions. After the end of the period of guarantee referred to in this Article Traffic ID shall not be obliged to remedy any Defects, unless an agreement for the provision of maintenance and/or management Services covering such remedies was concluded between Parties.
- 4.5 To Goods and Services provided by a Supplier the terms and conditions of the said Supplier shall apply and this Supplier's terms and conditions shall replace the provisions in these General Terms and Conditions and/or Agreement if they are at variance with this Supplier's terms and conditions. Customer shall accept the said terms and conditions of such Suppliers and/or licensors, which shall be open to inspection by Customer at Traffic ID's, and Traffic ID shall send them to Customer on request, except where these were already provided together with Goods. If and insofar as the said terms and conditions of this Supplier are deemed not to apply to the relationship between Customer and Traffic ID or are declared inapplicable, for any reason whatsoever, the provisions of these General Terms and Conditions shall apply, with the exception of the previous two sentences. Traffic ID shall not guarantee that the Goods will operate without interruption or failure.
- 4.5 Traffic ID shall guarantee that repairs performed by Traffic ID pursuant to guarantee obligations or other obligations as well as (parts of) Goods provided in this connection will be sound during a period of 3 (three) months from the completion of the said repairs in accordance with the functional specification(s) laid down and agreed between Parties, except in the event that Article 4.4 applies to the said (parts of) Goods. During the period referred to in the previous sentence Customer shall be entitled to notify Traffic ID forthwith of Defects relating to the part of Goods that was repaired, in writing, in detail, after which Traffic ID shall remedy the Defects to its best knowledge and ability. This guarantee shall not apply (i) if Customer does not submit the (service) report concerned and the (copy of the) invoice relating to these repairs or activities to Traffic ID, (ii) to the repair of mutilated or lost data, (iii) in the

Such a situation shall be understood to include a nonattributable shortcoming of the Supplier.
- 10.2 In such situations Traffic ID shall be entitled to suspend the obligations concerned without judicial intervention and/or – when the situation has continued for more than two (2) calendar months – to dissolve the Agreement concerned in full or in part in writing, without Traffic ID being liable to pay any damages or offer any guarantee. In the event of dissolution in full or in part, that which has already been performed pursuant to the Agreement shall be settled in proportion, without Parties owing each other anything for the rest.

- 12.2 Traffic ID shall be authorised to terminate the Agreement concerned in full or in part with immediate effect, without further notice of default and without prior judicial intervention, by registered letter, if Customer fails to fulfil any obligation arising from the said Agreement (in time) (including without limitation the settlement of the amounts payable by Customer) and after fourteen (14) days have lapsed since the date of a written notice of default addressed to Customer, without prejudice to Traffic ID 's other rights.
- 12.3 If Customer has already received any Goods and/or Services from Traffic ID at the moment of any termination, such performance and the obligation to pay relating to it shall not be an object of undoing. Any amounts invoiced by Traffic ID before the termination in connection with any Goods and/or Services which Traffic ID has already provided in execution of the Agreement, shall remain due and shall become immediately payable on termination, without prejudice to Traffic ID 's other rights.

GENERAL TERMS AND CONDITIONS

B. SPECIAL PROVISIONS GOODS

14 Goods: delivery

- 14.1 Goods shall be delivered at a place in The Netherlands designated by Customer at the net amount determined by Traffic ID on the basis of Delivered Duty Paid (DDP, as referred to in the Incoterms 2000), unless agreed otherwise in writing between Parties.
- 14.2 Traffic ID shall be authorised to deliver Goods in parts and shall be entitled to require payment of each partial delivery, unless agreed otherwise in writing between Parties.
- 14.3 Traffic ID shall pack Goods before delivery in accordance with the customary standards applied by Traffic ID. Should Customer require a special way of packing, the extra costs relating to it shall be for Customer's account. Any such packing materials of Goods delivered as have been left on Customer's premises shall be treated by Customer in accordance with the regulations in force with respect thereto. Customer shall indemnify Traffic ID against any claims made by third parties in respect of Customer's nonobservance of such or any other regulations.
- 14.4 Traffic ID shall only accept Goods returned if and insofar as Customer has been granted a 'Return Material Authorisation' (RMA), being Traffic ID's permission to return Goods, which shall be granted to Customer by assigning the same a specific RMA number. In this event Customer shall return the Goods to Traffic ID for Customer's account and risk, stating the said RMA number, unless agreed otherwise in writing between Parties.
- 14.5 Customer shall not be entitled to make any claims relating to Goods which have been processed, treated or adapted by Customer in full or in part, or of which control is no longer possible for whatever reason.

GENERAL TERMS AND CONDITIONS

15 Goods: transfer of risk and ownership

- 15.1 From the moment when Goods come within Customer's actual power to dispose of them or within the actual power to do so of an auxiliary person used by Customer, including the moment of delivery by or on behalf of Traffic ID , the Goods delivered shall be for Customer's risk.
- 15.2 The ownership (not being the intellectual property rights) of the Goods delivered shall not be transferred to Customer until payment in full has been made by Customer pursuant to the Agreement. As long as Goods are still owned by Traffic ID , (i) Customer shall never be entitled to sell, process, treat, adapt, encumber, pledge (undisclosed or otherwise) and/or hire Goods and/or make them available in any other manner, and (ii) Customer shall be obliged to store or have others store Goods with due care and as the recognisable property of Traffic ID. Traffic ID shall at all times be entitled to collect these Goods again, wherever they may be.

GENERAL TERMS AND CONDITIONS

16 Goods: acceptance

- 16.1 Goods which are not installed by or on behalf of Traffic ID, shall be deemed to be accepted by Customer from the moment of delivery by or on behalf of Traffic ID and if Customer has not lodged a wellfounded specified claim in writing with Traffic ID within eight (8) Workdays from the said delivery and given Traffic ID the opportunity to examine the Goods concerned within the said period.
- 16.2 As for Goods delivered and installed by or on behalf of Traffic ID, Parties shall in joint consultation decide on a procedure relating to the performance of Traffic ID's installation test and/or acceptance test, and the said Goods shall be deemed to be accepted by Customer as soon as this test has been performed so successfully that Defects which in fairness seriously prevent the putting into operational service (for any purpose of production or operation) due to their nature are (no longer) established, or as soon as a functional inspection has proved that Goods operate according to the functional specification concerned. Immediately after the said installation test and/or acceptance test has been performed successfully, an acceptance protocol or socalled 'Field Service Report' shall be drawn up and signed by Customer or by both Parties in witness of the acceptance referred to in this Article
- 16.3 Goods which are delivered and installed by or on behalf of Traffic ID, shall also be deemed to be accepted by Customer: (i) if Customer prior to the said installation test and/or acceptance test makes use of (a part of) Goods for any purpose of production or operation, (ii) if Customer delays the commencement of the installation and/or acceptance test by more than eight (8) Workdays (counting from the date on which Goods were offered for acceptance by Traffic ID) in a manner attributable to Customer.
- 16.4 If it was agreed between Parties that the Goods would be delivered in stages, Traffic ID shall be entitled to postpone the delivery forming part of the next stage until Customer has accepted the delivery forming part of the preceding stage in writing

GENERAL TERMS AND CONDITIONS

TRAFFIC ID SOFTWARE

17 Traffic ID Software: delivery and/or development

- 17.1 If Customer wishes Traffic ID to develop and/or deliver specific Traffic ID Software, Parties shall arrange and specify the (manner of) development or delivery thereof as well as the subjects relating to it in further detail, which shall be laid down in an Agreement. Traffic ID shall execute this development and/or delivery with care on the basis of goods and/or information to be provided by Customer as described in the said Agreement and in Article 5.1 of these General Terms and Conditions.
- 17.2 Traffic ID shall deliver and install the Traffic ID Software at Customer's in conformity with the specification laid down in writing, on the understanding that installation shall only be effected if such was agreed between Traffic ID and Customer in writing.
- 17.3 If no acceptance test was agreed in writing between Parties, Customer accepts the Traffic ID Software in the condition it is in at the time of delivery or (insofar as the installation was agreed in writing between Parties) the installation by Traffic ID, without prejudice to Traffic ID's obligations under the guarantee referred to in Article 4.3.
- 17.4 If an acceptance test was agreed in writing, the test period shall be ten (10) Workdays from delivery or, if it was agreed in writing that the installation would be carried out by Traffic ID, after completion thereof. During the test period Customer shall not be permitted to use the said Traffic ID Software for any purposes of production or operation.
- 17.5 If, during the performance of the agreed acceptance test, Traffic ID Software is found to contain Defects hampering the progress of such test, Customer shall notify Traffic ID in writing, in detail, in which case the test period shall be interrupted until the Traffic ID Software has been adapted in such a manner that the obstacle is removed.
- 17.6 If, during the performance of the agreed acceptance test, Traffic ID Software is found to contain Defects, Customer shall notify Traffic ID of such Defects by means of a written and detailed test report at the latest on the last day of the test period. Traffic ID shall make every endeavour to remedy the Defects reported within a reasonable period and with respect thereto be entitled to provide the software with temporary solutions or with software bypasses or problemavoiding restrictions.
- 17.7 Between Parties Traffic ID Software shall be deemed to be accepted (i) if no acceptance test was agreed between Parties: on delivery or, if it was agreed in writing that the installation would be carried out by Traffic ID, on completion thereof, or (ii) if an acceptance test was agreed in writing between Parties: on the first day after the test period, or (iii) if, before the end of the test period, Traffic ID receives such test report as is referred to in Article 17.6: from the moment when the Defects mentioned therein have been remedied, notwithstanding the presence of any such imperfections as permit acceptance pursuant to Article 17.8. In deviation from the above, Traffic ID Software, in the event that Customer makes use thereof for any purpose of production or operation, shall be considered fully accepted from the commencement of such use.
- 17.8 Acceptance of Traffic ID Software shall not be withheld on any grounds other than those relating to the specifications expressly agreed between Parties, nor on the grounds of any small Defects, i.e. Defects reasonably permitting the commencement of the use of Traffic ID Software, without prejudice to Traffic ID's obligation to remedy such small Defects under the terms of guarantee contained in Article 4.3, if applicable.
- 17.9 If it was agreed between Parties that Traffic ID Software would be delivered, tested and accepted in stages and/or parts, Traffic ID shall be entitled to postpone the delivery forming part of the next stage until Customer has accepted the delivery forming part of the preceding stage in writing. The nonacceptance of any particular stage and/or part shall not prejudice possible acceptance of any earlier stage and/or any other part.

GENERAL TERMS AND CONDITIONS

- 18.1 Traffic ID shall exclusively grant Customer the nonexclusive, nontransferable right to use Traffic ID Software, solely for the purpose of normal business operations of Customer. The said right of use shall solely amount to the right to load and operate Traffic ID Software on the one processing unit and for the specified number or type of users or terminals for which the right of use was granted. Unless otherwise agreed, Customer's processing unit on which this Traffic ID Software was first used and the number of terminals that were connected with such processing unit at the time when it was first used, shall be deemed to be the processing unit and number of terminals for which the right of use was granted. Should the said processing unit malfunction, the Traffic ID Software may be used on another processing unit for the duration of the malfunction. The right of use may relate to several processing units insofar as specifically shown by the Agreement.
- 18.2 Customer shall in no way be entitled to transfer and/or sublicense the right of use referred to in Article 18.1, make any modifications and/or additions to Traffic ID Software and carriers on which it is recorded or cause these to be made, nor hire, sell, sublicense, alienate or pledge Traffic ID Software, transfer Traffic ID Software as collateral or security, create an option right on it or make it available to any third party under any title whatsoever.
- 18.3 Immediately after termination, if any, of the right to use any Traffic ID Software Customer shall return all copies of the said Traffic ID Software in his possession to Traffic ID. If it was agreed between Parties that Customer would destroy the copies concerned at the termination of the right of use, Customer shall forthwith report such destruction to Traffic ID in writing.
- 18.4 Customer shall not modify Traffic ID Software otherwise than as part of the remedying of Defects and possible other errors, nor use it as part of data processing for the benefit of third parties (timesharing). The source code of any Traffic ID Software and the corresponding technical documentation shall not be made available to Customer.
- 18.5 Customer shall be entitled to keep or make two (2) backup copies of the said Traffic ID Software. For the purpose of these General Terms and Conditions a backup copy shall be understood to mean: a material object on which Traffic ID Software is recorded, for the sole purpose of replacing the original copy of this Traffic ID Software in the event of involuntary loss of possession or damage.
